SUMMARY

Skilled in building secure, scalable, and high-performance web solutions with a strong focus on Laravel and PHP. Experienced in integrating LDAP, SAML, UniFi Controller, and Zoho APIs to streamline operations and enhance security. Proficient in both backend and frontend development, database optimization, and creating responsive interfaces using Bootstrap, jQuery, and AJAX. Known for solving complex problems with practical solutions that align technical development with business objectives.

EXPERIENCE

Lead Software Developer

X Dynamics

June 2024 - Present, Ajman Emirate, United Arab Emirates · On-site

- Led end-to-end integrations of Tabby, Tamara, N-Genius, Aramex, Quiq, and UniFi Controller systems into Laravel-based platforms, while implementing secure authentication with Active Directory (LDAP & SAML) and deploying AI-driven robotic automation solutions.

Freelance Web Developer

Self Employed

January 2023 - Present, Remote · Remote

- Developed and maintained responsive websites for clients using HTML, CSS, JavaScript, and other web technologies.
- Collaborated with clients to understand their requirements and translate them into functional and visually appealing websites.
- Implemented best practices for web development, including code optimization, crossbrowser compatibility, and mobile responsiveness.
- Utilized frameworks and libraries such as Bootstrap and jQuery to streamline development processes.
- Delivered highquality projects within agreed timelines and budget constraints.

Full Stack Developer

Roshni Technologies

April 2024 - July 2024, Abu Dhabi, Abu Dhabi Emirate, United Arab Emirates · Hybrid

- Developed and maintained web applications using PHP, WordPress, and Laravel. Ensured seamless integration between frontend and backend systems. Collaborated with teams to enhance performance and user experience.

Laravel Developer

WemX

November 2023 - December 2023, Zwolle, Overijssel, Netherlands · Remote

- Worked on the development and implementation of the WEMX product/software, collaborating with a team based in the Netherlands. In my role, I am responsible for identifying and resolving issues within the software, implementing enhancements, and incorporating new features and modules.
